

1. Logs

The screenshot shows the 'Manage your mocks' page on the Mocky.io website. At the top, there's a navigation bar with the Mocky logo and two buttons: 'MANAGE MY MOCKS' and 'NEW MOCK'. The main heading is 'Manage your mocks'. Below it is a table with four columns: 'Name', 'Description', 'Date', and 'Actions'. The table contains one mock entry with the name '0bbf4a85-138c-4629-8655-4bc5f9b9d1aa'. The description column shows a JSON object: { "Full_Name": "Test", "Email": "Test@gmail.com", "mobileNumber": 99273799999, "Age": 20, "Gender": "Male" }, with a '200 application/json UTF-8' status indicator. The date is '2024-08-24 21:08'. The actions column has three icons: a link, a copy, and a delete. A blue warning box below the table states: 'Warning: These data are stored on your computer. It will be lost if you clean your browser cache (local-storage)'. At the bottom, there's a footer with 'FAQ', '© 2023 Mocky.io', 'Privacy Policy', 'Cookie Policy', and social media links for GitHub and Twitter.

3. Link for the Repository API.
